TRAMO DE CALIBRACIÓN

Todas las mediciones recogidas en el Libro de Ruta han sido tomadas en condiciones normales de tráfico, realizando una conducción natural por el carril derecho de la calzada.

El tramo de calibración se encuentra en la carretera CV-149.

La calibración se ha efectuado circulando por el carril derecho de la calzada y tomando como referencia la posición del copiloto al lado del hito kilométrico.

El inicio del tramo se encuentra marcado en el asfalto en la vía de servicio paralela a la CV-149 (ver foto 1).

Discurre por dicha vía hasta la salida del Fuente la Reina, donde finaliza (ver foto 2).

Ante cualquier duda, se puede consultar el vídeo explicativo en www.youtube.com/user/clasdepcas
